Time Log			
Estimated time to complete assignment =>			70 Hours
Date	Time Spent (in hours)	Description	Author
10/31	1	Created git repo. Discussed project topic and group roles.	Christopher T. Sutor, Nana Nimako, Benjamin Sylvester
11/03	0.5	Creating time log and adding all members to it. Remind group of our email update due Monday. Work on email update	Benjamin Sylvester
11/08	1.5	Digressed our project idea to be more competitive for the CS Fair. Entered the CS Fair. Created a draft walkthrough of our website. Determined the functionalities we wanted. Created a draft of the database structure.	Christopher T. Sutor, Nana Nimako, Benjamin Sylvester
11/12	1	Created initial files and created the initial commit. Also created draft for look of home page.	Christopher Sutor
11/13	1.5	Added the final slider, nav and some css for the index page	Nana Nimako
11/19	2	Finished HTML for form. Working to create tables in PHP myAdmin to select and insert into. Created the database, tables, and ERD diagram. Started working on saving form data to database	Benjamin Sylvester Christopher Sutor
11/29	3	Continued work on the database. Populated tblHalls with all the UVM residential halls. Created the listbox of halls. Ammended the tables. Added form fields for comments, and I am working on image uploads.	Christopher Sutor
11/29	2	Created all the campus pages	Nana Nimako
11/30	2	finished uploading images process, finished htaccess creation/application/reorganization, finished the tables as of the current	Christopher Sutor
11/30	1	Group Meeting. Combined our code. Got an updated version on everybody's machine. CSS.	Christohper T. Sutor, Nana Nimako, Benjamin Sylvester
12/02	2	Edited the css for the pages and all the pictures that was taken fot the site	Nana Nimako

Introduction

Purpose

The purpose of this document is to describe the requirement specification for the web site "The CNB SWAPPER".

The intended audience for this document is UVM undergraduate Students

First it is the contract between you and the client. Second it is for the developer of the site. Two primary goals are:

- 1. Client gets a very good understanding of what you will be delivering.*
- 2. Developer has a very good understanding of what they are going to create.*

Definitions, acronyms, and abbreviations

Sample for the client:

ER Diagram – a diagram to represent the data you want to save with your system

W3 Validation – refers to both Html and CSS validation tool provided by the W3c.org. the html validator is located at:

<http://validator.w3.org/>

with the CSS validator located at:

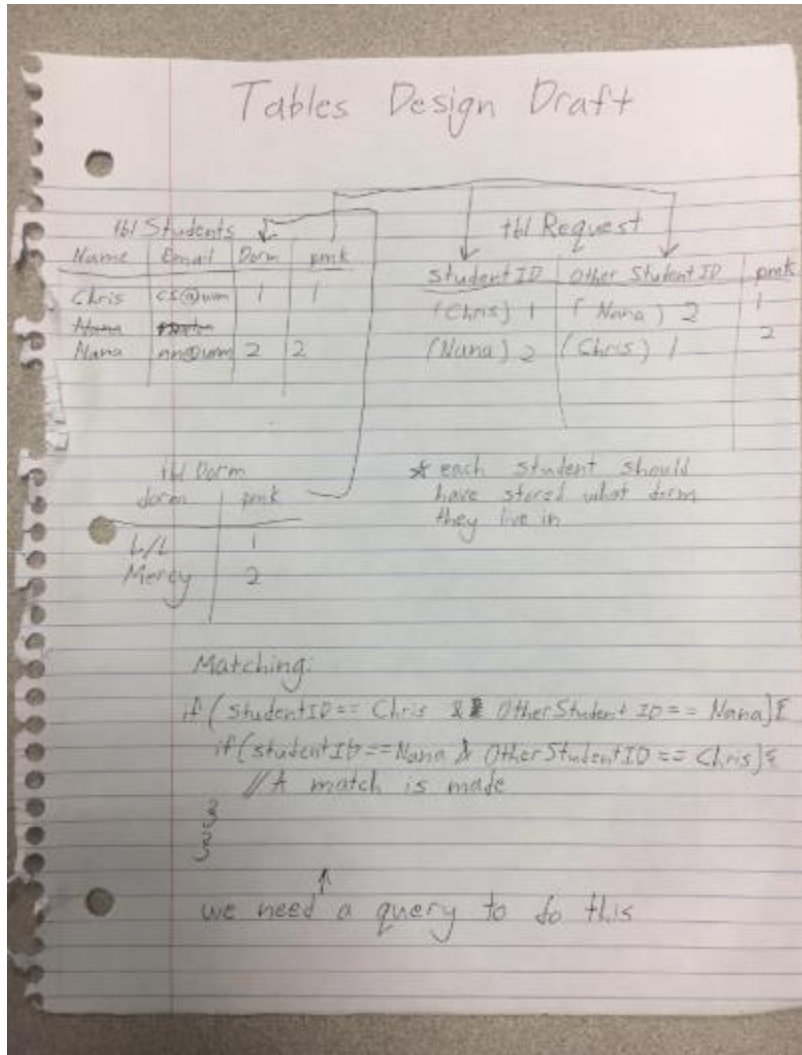

<http://jigsaw.w3.org/css-validator/>

Overall Description

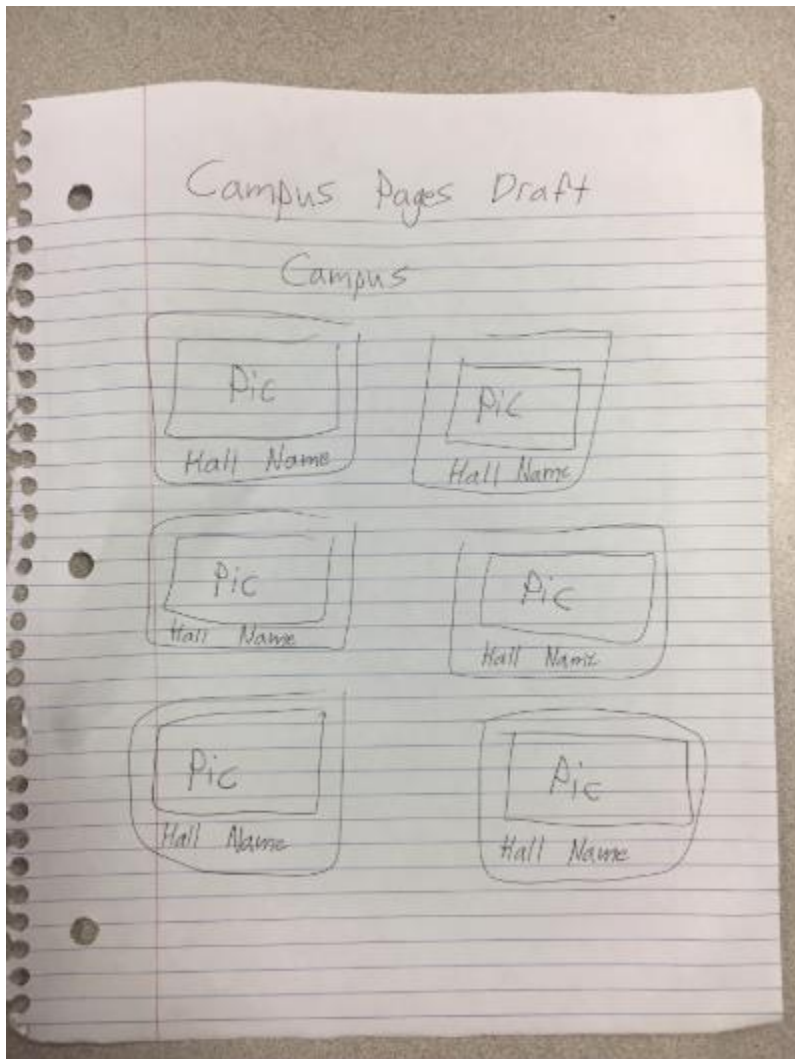

The CNB Swapper is web application designed for UVM underclassmen to swap dorms with another student on campus. The student fills out our form application, and their application is sent to our explore page. From here, users can view all swap postings. If they see a dorm they would be interested in swapping into, they can select that dorm and request a swap. For a match to be made, the two users have to request each other's posting. When that occurs, an email message is sent to both users notifying them that a match has been made.

ER- Diagram

You can use power point or any program really. Past the image here.

Title of project	Version <1.0>
The CNB Swapper	Date : 10/30/2018

Schema

Paste your schema here. The final version is easy to get by exporting to the screen in phpMyadmin

Title of project	Version <1.0>
The CNB Swapper	Date : 10/30/2018

Specific requirements

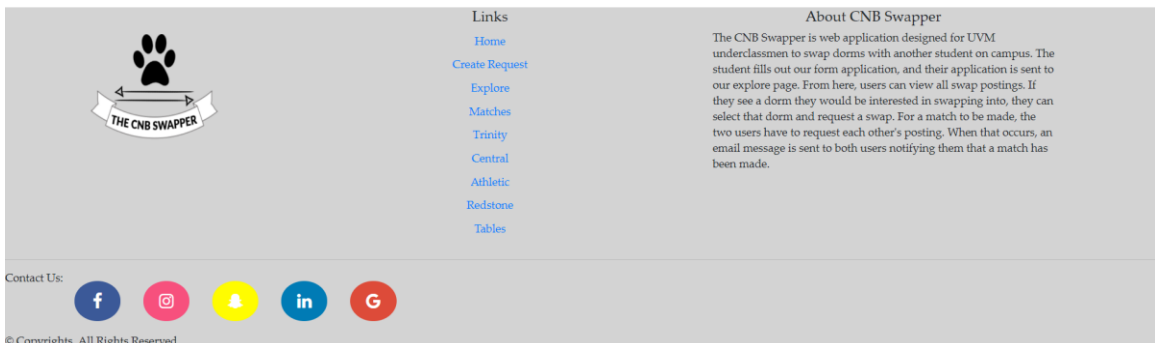

1. *You fill out* – This is where you would put the exact detail of what you want for the project. For example:
2. *Title for main page:* CNB Swapper
3. *Meta Description:* A web application that allows undergraduates from the university of Vermont get the opportunity to upload or list their dorm on a market for swap or change
4. *Meta Character set:* UTF - 8
5. *Logo:*

6. *Main page photo:*

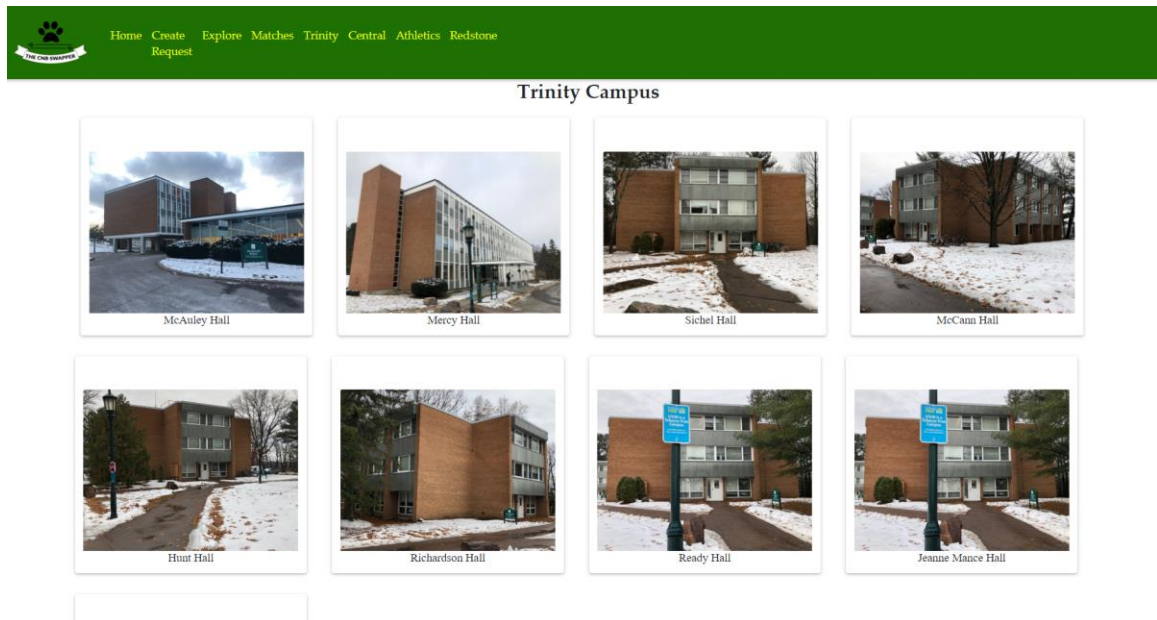

Explore | Swap

7. *Campuses pages:*

Title of project	Version <1.0>
The CNB Swapper	Date : 10/30/2018

This was repeated for the other campuses on campuses. I.e.: central, athletic, and Redstone

8. Create a Request Page

The image shows a web page titled "Apply to Swap Today!" with a green header bar containing a paw print logo and navigation links: Home, Create, Explore, Matches, Trinity, Central, Athletics, Redstone, and Tables. Below the header, a message states: "Your information will be sent to our swapping database where we will try to pair you with a fellow swapper." The main content area contains a form titled "Swap Information" with the following fields:

- First Name:
- Last Name:
- Email:
- Hall:
- Room Number:
- Dorm Style:
- Roommates:
- Class Standing:
 - ☐ Freshman
 - ☐ Sophomore
 - ☐ Junior
 - ☐ Senior
- Comments:
